

WIS Series

Wound Chip Inductor

Size 1812

CHARACTERISTICS

- Small size and higher inductance available
- Small tolerance available
-

APPLICATION

- Filter
-

Dimensions: [mm]

Land Pattern: [mm]

Electrical Properties:

 C°

The graph shows the temperature rise of a liquid in a beaker over time when heated by a 100 W heater. The x-axis represents time in minutes (0.0 to 2.5), and the y-axis represents temperature rise in degrees Celsius (0.0 to 70.0). The curve starts at the origin (0,0) and rises with an increasing gradient, indicating that the rate of temperature increase is not constant.

Time (min)	Temperature Rise (°C)
0.0	0.0
0.5	1.0
1.0	5.0
1.5	15.0
2.0	30.0
2.5	58.0
